Style^{D2}

Refined by design. Shaped by experience.

Designing a Pressalit toilet seat is an exercise in refinement: Reducing, shaping and perfecting until only the essential remains. With Style^{D2}, our designers have worked meticulously with form, proportions and surfaces to create a slim, elegant silhouette where every beautiful detail serves a purpose. The result is a design that feels light and contemporary, yet unmistakably rooted in Danish design tradition. For decades, Pressalit has refined the balance between aesthetics, comfort and durability. Guided by the belief that good design should last. Style^{D2} is the latest expression of that philosophy. With a confidence in our design. A deep respect for quality. And more than 70 years of experience defined by care and an uncompromising attention to detail.
